All Weather, Inc. Awarded a General Services Administration (GSA) Contract

Sacramento, CA (November 2, 2010) - All Weather, Inc. (AWI), a leading manufacturer of weather information systems and meteorological sensors, has been awarded a General Services Administration (GSA) contract under Schedule 66 titled "Scientific Equipment and Services" with special schedule numbers 66-607, 66-608 and 66-610. The GSA contract will allow AWI to better serve our many Federal customers and provide them with a wide range of both sensors and systems.

At the following web address www.gsaadvantage.gov and under contract number GS-07F-0408W customers are able to search a wide range of products and solutions provided by AWI. Included in AWI's GSA schedule are many of our aviation grade meteorological sensors and systems offered in the most commonly required configurations and specifications. If you cannot find what you are looking for on GSA, AWI's technical sales team is available to develop a custom configuration suited for your exact requirements.

About All Weather, Inc.

AWI is a leading developer of high-accuracy; high-dependability weather information systems that help users minimize risks in an unpredictable world. The company provides AWOS aviation weather systems and air traffic control display systems, as well as a wide range of high-accuracy meteorological sensors and systems, including laser ceilometers, runway visual range systems, lightning detection sensors, and a variety of other meteorological sensors. AWI's ASOS, AWOS, and AWSS systems meet the stringent standards of the International Civil Aviation Organization (ICAO), the World Meteorological Organization (WMO), and FAA. AWI has installed more than 4,500 high-end automated weather systems and sensors around the globe, working with such leading authorities as the

U.S. National Weather Service, FAA, ICAO, WMO and commercial users around the world.
