

Dual L-810 Obstruction Lights Kit Model M488276-00

- FAA Type: L-810 Steady-Burn Obstruction Light
- ICAO Type: Low Intensity Obstacle Light

Overview

These LED-based obstruction lights last up to five times longer than an incandescent light and use up to 90% less power than an equivalent incandescent light.

The Model M488276-00 Dual Obstruction Light Kit comes with a weather/corrosion-resistant lamp assembly and housing. The self-contained wiring compartment

eliminates additional boxes. The housing is also resistant to shock and vibration.

These obstruction lights can be operated as a steady-burn light (ETL certified) or as a flashing light, and they carry a five-year warranty.

PERIPHERALS

SPECIFICATIONS
